RockGeo **Business**

FOR COMPANIES

Your field team, under control.

RockGeo Business organizes your company's projects, people and seats — from the phone in the field, even offline, to the office.

THE APP IN 10 LANGUAGES

Português · English · Español · Français · Deutsch · Nederlands · Русский · 中文 · 日本語 · 한국어

1 Control your field teams

Invite by email and assign roles: **director, manager, collaborator and viewer**. Everyone collects in the right project, with GPS, photos and compass, even without signal.

2 Company projects

Projects live in the **organization**, separate from personal accounts. Per-project teams, an audit trail and sync with the web portal whenever there is internet.

3 Seats

The director **assigns and releases seats** at any time. Each seat is one person collecting or managing; **free viewers** don't take a seat.
